

Special Workshop for Teachers

Saturday, March 25, 2017

Diane Briars, National Council of Teachers of Mathematics *Effective Mathematics Teaching Practices*

Standards, such as the Common Core State Standards for Mathematics (CCSS-M), will not ensure high levels of mathematical understanding by all students. This is because teachers — not standards — teach! NCTM's landmark publication, *Principles to Actions: Ensuring Mathematical Success for All*, was written to fill this gap between the development and adoption of CCSS-M (and other standards) and mathematical classroom practices to successfully implement them. In this talk we will explore the Mathematics Teaching Practices that are outlined in *Principles to Actions*.

Diane Briars, immediate past president of the National Council of Teachers of Mathematics

The workshop will take place from 9:00 a.m. to 2:30 p.m. A continental breakfast will begin at 8:30 a.m. Lunch will be provided.

Please RSVP by March 15 at www.math.cornell.edu/m/Community/5080#form

Sponsored by: Cornell University Department of Mathematics and the NYS Master Teacher Program (SUNY-Cortland).

Statler Hotel Ballroom - 130 Statler Drive, Cornell University
