

The 46th Cornell Topology Festival

Ithaca, NY

May 2-5, 2008

Andrew Dancer (Oxford University)

Hansjörg Geiges (Universität zu Köln)

Viktor Ginzburg (UC Santa Cruz)

Rebecca Goldin (George Mason University & Cornell)

Richard Kenyon (Brown University)

Ian Leary (The Ohio State University)

Kaoru Ono (Hokkaido University)

Peter Ozsváth (Columbia University)

Katrin Wehrheim (M.I.T.)

Shmuel Weinberger (University of Chicago)

This year's Festival includes a concentration in symplectic topology and geometry. There will be two introductory workshops and a panel discussion. For registration and further details, see the festival web page:
